

Dear Music Lover,

We represent **RasRang** (a division of Guitarmonk Records), preserving and supporting definitive art and artists. We have launched MusiKconnect Album Subscription service which primarily connects Indian Classical Music to the world.

The unique element of MusiKconnect Albums is that these albums are released and connected directly to the masses via Surprise Music Album Gift every month at their home. This service primarily exists with the motto of preservation of definitive arts and representation of Indian Music Heritage.

"India is a territory of talent, the ones who spend generations and thousands of years to carry on a particular value of art and pass it to next generation via 'guru shishya' method. It's also a fact that only a handful part of lucky ones gets the chance to present their music forward and substantial part of this community stays isolated and dies with their talents inside them and sometimes starves too.

The gap gets too wider and unbridgeable at times when promoters are only centered on TRP and glam etc. This creates a need of a bridgeable and dedicated concept that could maintain and serve this value."

In order to serve the above cause, we are penetrating this movement and service directly to the masses via introducing limited subscription coupons across India.

MusiKconnect Albums conceives 100s of music recordings with a plethora of artists across wider territories. Some of our artists include: Ustad Sultan Khan, Padma Bhushan Pt. Debu Chaudhuri, Padma Shree Sumitra Guha, Late Pt. Mahavir Prasad, Pt. Jwala Prasad etc.

Thanks and Regards
For Guitarmonk
